

## QUALITY AND BUSINESS CONTINUITY POLICY

Nigeria's economy primarily depends on its oil and gas revenue. Thus, the role of NAPIMS in managing the nation's upstream oil and gas investments through Joint Venture Agreements, Production Sharing Contracts and Service Contracts require high sense of responsibility, collaboration and diligence. It is therefore necessary to affirm performance excellence via innovative process improvements in all operations of NAPIMS and promote leading global practices that align with Transparency, Accountability and Compliance.

Accordingly, through an effectively implemented Quality and Business Continuity Management Systems sanctioned by ISO9001:2015 (QMS) and ISO22301:2019 (BCMS), NAPIMS shall insist on:

- Best practice stakeholder management that ensures value addition
- Improved efficiency and effectiveness through innovation and technology
- Satisfaction of internal and external customers
- Continual improvement of all activities, projects, and programs
- Compliance with all statutory, regulatory, and contractual requirements
- Robust business impact analysis and risk assessment at all levels
- Competent and adequately enabled workforce.

Whilst focusing on maximizing the benefits of the nation's hydrocarbon resources for all stakeholders, sustainable development of NAPIMS shall be ensured through clearly defined objectives, visionary leadership, adequate resource deployment and emplacement of a conducive environment.
